A new temporary expedited interconnection process for generators that meet specific eligibility requirements.

To be eligible, a generator must meet the following criteria, including but not limited to:

1. **Have written support from a Primary Siting Authority to expedite consideration of applicable siting**
2. **Be able to achieve commercial operation within 36 months**
3. **Have at least 250 MW of Accredited UCAP**

- Standalone process that operates outside of, but in parallel to, the PJM Cycle Process
- Expedites shovel ready state sponsored generation projects to help meet future resource adequacy needs

Background

August 2025
PJM Board initiates the Critical Issue Fast Path (CIFP) process to address the development of reliability focused solutions for large load additions

November 2025
MC votes on solution packages presented throughout the CIFP, no consensus is made

January 16, 2026
PJM Board delivers a letter directing PJM staff to advance seven directives, one of which being the EIT

February 27, 2026
PJM submits EIT filing with FERC. Docket No. ER26-1563

April 9, 2026
PJM submits Limited Answer and Amendment with FERC Docket No. ER26-1563

June 9, 2026
PJM anticipates FERC to make a ruling on the EIT filing

July 31, 2026
Requested Effective Date

2025 2026
