

Manual 14H Revisions

Expedited Interconnection Track (EIT)

David Sadowski
Sr. Engineer I
Interconnection Projects

Planning Committee
July 7, 2026

Disclaimer: While materials are current at the time of publishing, applicable requirements may change. PJM Governing Documents control.

A new temporary expedited interconnection process for generators that meet specific eligibility requirements.

To be eligible, a generator must meet the following criteria, including but not limited to:

1. Have written support from a Primary Siting Authority to expedite consideration of applicable siting
2. Be able to achieve commercial operation within 36 months
3. Have at least 250 MW of Accredited UCAP

- Standalone process that operates outside of, but in parallel to, the PJM Cycle Process

- Expedites shovel ready state sponsored generation projects to help meet future resource adequacy needs

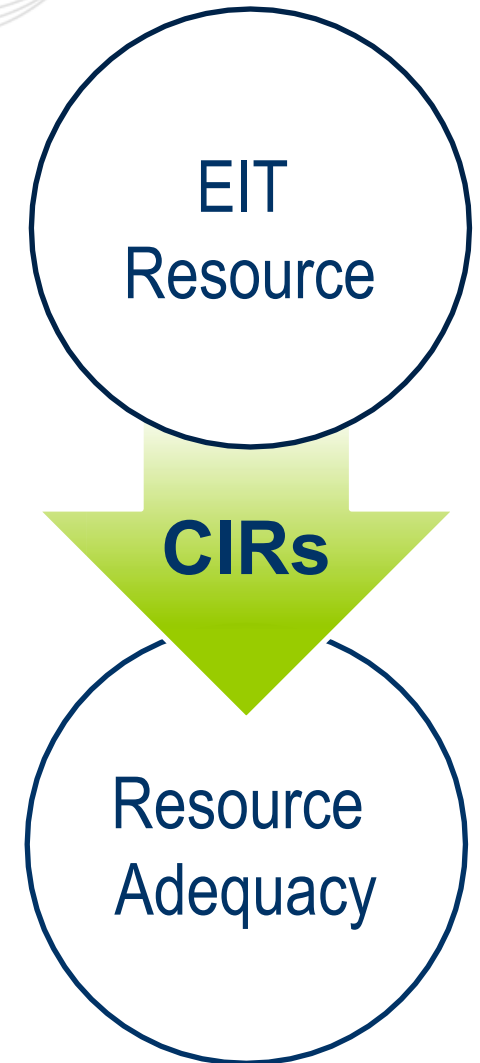

Exhibit 41: EIT Interconnection Process

August 2025

PJM Board initiates the Critical Issue Fast Path (CIFP) process to address the development of reliability focused solutions for large load additions

2025

November 2025

MC votes on solution packages presented throughout the CIFP, no consensus is made

January 16, 2026

PJM Board delivers a letter directing PJM staff to advance seven directives, one of which being the EIT

2026

February 27, 2026

PJM submits EIT filing with FERC. Docket No. ER26-1563

June 9, 2026

FERC accepts the EIT Tariff revisions

April 9, 2026

PJM submits Limited Answer and Amendment with FERC Docket No. ER26-1563

July 31, 2026

Effective Date

OATT Part X, – Expedited Interconnection Track

- New section that outlines the EIT process

M14H sections identified for revision to conform the manual to the OATT revisions
