Gaining Earlier Visibility Into Load Auction Awards

Load auctions often determine future load-serving obligations months before delivery begins, yet PJM may not receive official information regarding awarded suppliers until the delivery month.
PJM seeks stakeholder perspectives on how this information gap can be reduced to provide earlier visibility into material load shifts between suppliers to support credit assessment, more timely collateral planning and evaluation of changing Market Participant risk profiles.

Provide your perspective by taking the poll:
RMC Poll (https://pjm.qualtrics.com/jfe/form/SV_552xrOw5lyeJyWq)

Poll closes 9/30/2026
