

The New Webex Suite Meeting Platform

As of January 8, 2025

- On December 10, 2024, target date or date of deployment changed from “TBD” to May 21, 2025.
- On January 8, 2025, target date or date of deployment changed from May 21 to March 14, 2025.

- The meeting options that were once at the top menu bar will be distributed across different locations within the in-meeting software.

- The meeting chat panel interface will be different where participants will be able to edit font text, add reactions, and chat directly @ individuals.
- Participants who join Webex Meetings via browser will experience an interface that is very similar to the interface that Webex App users experience.
- Cisco Webex is also making feature changes that affect how AV hosts and supports Webex Meetings.

Action Required	Target Date	Who Will Be Affected
No Action Needed	March 14	All participants who join Webex Meetings hosted by PJM.
