

Additional GENRUNR Code for Exchange via ICCP (Generation Operational Testing)

As of June 9, 2025

George Chu
Markets Coordination

- Purpose of testing is to better ensure resources are capable of operating when needed for reliability
- Generation Operation Tests effective June 1, 2025
- Additional Resource:
 - [Manual 14-D: Generation Operational Requirements \(7.6 Generation Operational Testing\)](#)
 - [applicable OATT language , Attachment DD 7A. GENERATION OPERATIONAL TESTING AND CHARGES](#)

- GENRUNR is a prior-existing data point that acts as a packed-bit map for various reasons to run, sent from PJM to a resource.
 - See PJM Manual 14D for existing values and meanings for GENRUNR.
 - <https://pjm.com/-/media/markets-ops/ancillary/pjm-genrunr-values.ashx>

Additional GENRUNR code for exchange via ICCP
