◆	End Date

- PJM Connect (PJM's external SharePoint environment) is being upgraded to SharePoint Subscription edition in June 2026.
- The upgrade is due to the current version going out of support in 2026.
- The user experience will be very similar to what you see today.
- Users will have an opportunity to test the environment prior to go-live.
- The actual go-live will involve a short outage of the application.
