Project Scope/Overview

- Currently the process for meeting the Tariff requirements for managing construction project statuses for transmission projects is manual.
- Spreadsheets are emailed to between organizations.
- The purpose of this project is to allow Transmission Owners and Designated Entities the ability to provide updates directly through a website.
- Appropriate reviews and approvals from both sides were considered and are included as part of the tool.
- Corporate Affiliate Switching was considered.

1	2	3
Organizations need to consider roles for managing data.	Users must have a PJM Tools account with the appropriate Transmission Exchange role	Training and Roll-out activities are targeted for Fall/Winter 2026
