eDART File Downloads

- Please exercise responsible file downloads
- Repeated downloads of the same files before the prior download process has completed may have adverse effects on both the system and the download attempts
- Partial files, failed attempts where sessions cancel each other and errors may be returned
- Throttles to be added to endpoints experiencing excessive downloads to ensure system reliability

PJM © 2026

eDART File Downloads

- This is an example from eDART of repeated download attempts by one username for the emsoutage XML file.
- The EMS Outage information is updated every 5 minutes, and these requests are 2 seconds apart.
- Please note that throttles are reset as soon as the file is updated. User will receive the updated file even if throttle time has not elapsed.
