

Pexapark

Pexapark provides benchmark prices, market intelligence & advisory services for PPAs & BESS.

We offer a comprehensive suite of solutions to empower energy market participants to build strong investment business cases, execute successful transactions, and optimise portfolio revenues and risk management strategies.

With daily benchmark prices for Power Purchase Agreements (PPAs) covering solar, onshore and offshore wind, and energy storage, we deliver unparalleled market insights. By combining unmatched market-based data with expert analysis, we provide deeper context on the factors driving renewable energy prices.

Pexapark was founded in 2017 by seasoned energy traders and has grown into a leading authority on renewable energy pricing and market insights. Our Advisory experts leverage deep industry expertise to support clients, and come from diverse backgrounds in energy trading, investment, and development.

Our mission is to accelerate the transition to net zero by fostering an efficient and transparent renewable energy market.
