DER Participation Model Double Counting Matrix

Current Program		DER Model ¹		
		Capacity	Energy	Ancillary Services
Wholesale	None	✓	✓	✓
	Demand Response (Economic or LM)	⊘	⊘	⊘
	Peak Shaving	⊘	⊘	⊘
Retail	Price Responsive Demand	⊘	⊘	⊘
	Retail DR Program	<i>Varies, based on products/services provided at retail.</i>		
	NEM: Load Reductions	✓	✓	✓
	NEM: Injections ²	⊘ ³	⊘	✓

¹ PJM’s double counting rules are enumerated in Tariff, Attachment K-Appendix, Section 1.4B(b) and (h).

² This summary is based on existing Net Energy Metering tariffs. If these change in the future, the double counting assessment may be different.

³ While capacity may not be “provided” at the retail level—and, as such, there is no double counting of products or services—the inability to provide energy to PJM precludes the resource from participating in the capacity market as it would not be able to meet the energy must offer requirement.
