

Whereas, demand response is a viable means for retail customers within the PJM RTO to take advantage of their load reduction capability;

Whereas, PJM has made it possible for customers to earn capacity, energy and ancillary service credits for their load reduction capabilities;

Whereas, John P. (Jack) O'Neill has been an integral part of making demand response a respected provider of capacity, energy and ancillary services in PJM markets for over 15 years;

Whereas, many Curtailment Service Providers have looked to Jack O'Neill for guidance and insights into how demand response can best participate in PJM markets;

Whereas, Jack O'Neill, an acknowledged subject matter expert, has been a frequent contributor to the PJM Distributed Resources Subcommittee;

and whereas the PJM Distributed Resources Subcommittee is the forum for exchanging thoughts, ideas and insights between Curtailment Service Providers, other PJM stakeholders and PJM staff;

Therefore, on August 3, 2026, the PJM Distributed Resources Subcommittee hereby acknowledges its appreciation for Jack O'Neill's service, dedication, guidance and friendship and extends its condolences regarding Jack's passing to his family, colleagues and friends.
