

Transition Cycle 2 Kickoff Call Procedure

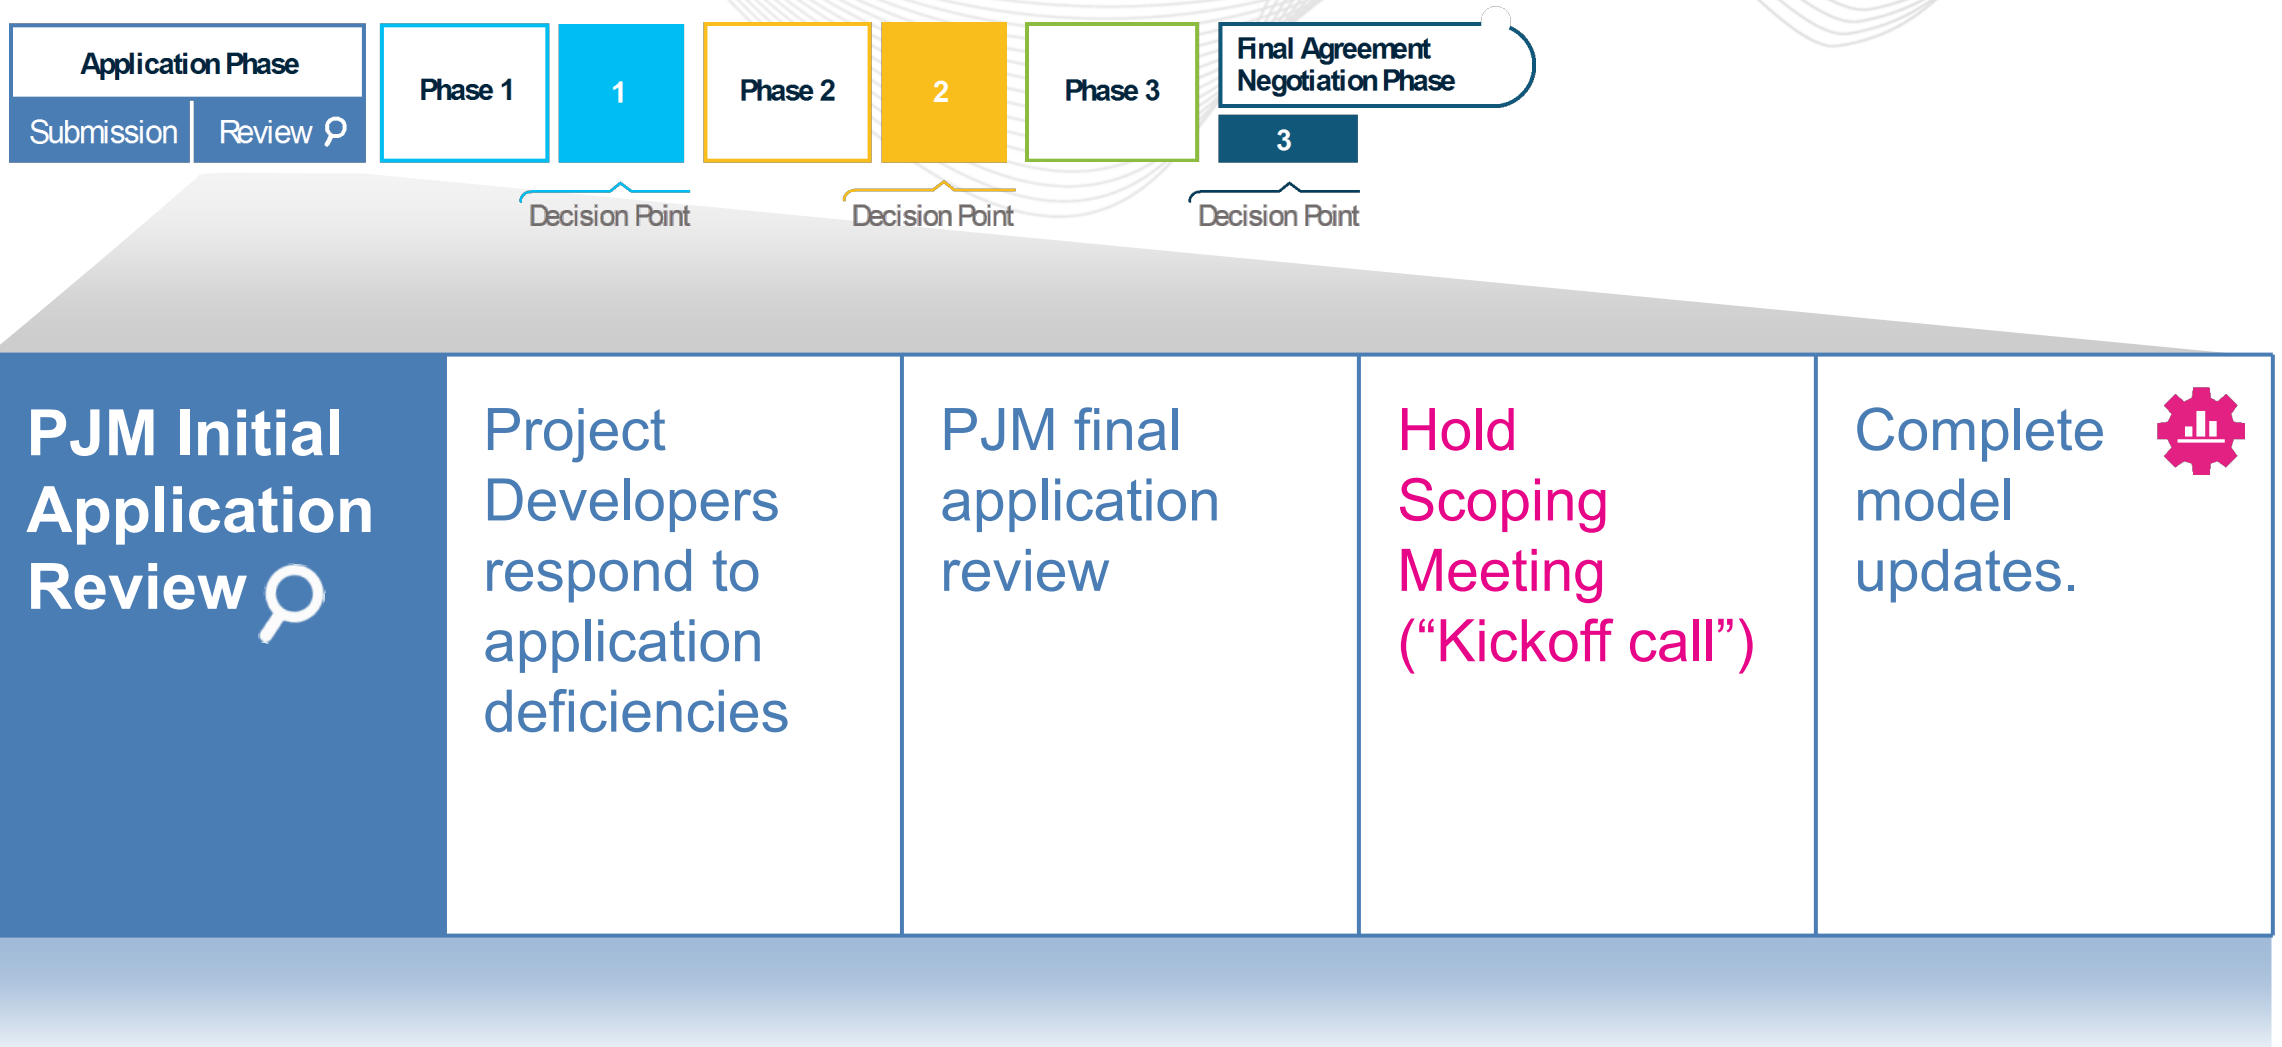

January 2025 IPS

Onyinye Caven
Interconnection Projects

Phase is 90 days*, and model must be available 30 days prior to beginning of Phase 1.

*PJM will use Reasonable Efforts to meet Tariff timelines. Follow the Interconnection Process Subcommittee for schedule updates

Confirm Point of Interconnection (POI) for Cycle model

PJM

Transmission
Owner (TO)

Project
Developer

Affected
Transmission
Owner,
Municipal or
Cooperative
utilities
(as applicable)

- 1 PJM Project Manager coordinates dates and times with TO and Project Developers.
- 2 Developers are allotted 20-minute slot for calls.
- 3 Discussions are strictly limited to pre-set agenda items.
POI, fuel, output and clarifications needed from TO/PJM.

TO will have access to approved project information in Queue Point to prepare for calls.

Review project information during deficiency response period:

<h3>Project Data</h3>	<ul style="list-style-type: none"> • Verify project data provided aligns with interconnection request. Kickoff call discussion is based on the approved data. • This ensures PJM captures all modelling data on the kickoff call: <ul style="list-style-type: none"> • Circuit / Substation Name and Voltage • Mileage between POI location and remote substation • Jurisdiction: Ferc or Non-Ferc • Ownership of POI circuit. <i>If POI circuit is owned by cooperative or municipal, notify PJM.</i>
<h3>Point of Contacts</h3>	<ul style="list-style-type: none"> • Update primary contact in Queue Point. • Kickoff call invite will be sent to primary point of contact. • Legal representation is not permitted on kickoff calls.
<h3>Affected Entities</h3>	<ul style="list-style-type: none"> • Project Developer should invite cooperative or municipal electric utilities to the kickoff call. • If Transmission Owner identifies cooperative or municipal electric utilities impacts, Project Developers will be notified.

- **Tariff Part VII, Subpart C, Section 306 (C)**
- **Manual 14H, Section 2.8**
- **Interconnection Process Subcommittee for TC2 updates**
