February 9, 2025

- Settlements and Data Miner teams are considering the retirement of the following feeds from Data Miner:
- [Regulation Zone Preliminary Billing Data](#)
- [Synchronized Reserve Preliminary Billing Data](#)
- [Secondary Reserve Preliminary Billing Data](#)
- [Non-Synchronized Reserve Preliminary Billing Data](#)

- The same data is available in either other Data Miner feeds and/or via Market Participant specific MSRS reports.
- Eliminate need for on-going maintenance of these feeds and potential errors.
  - A data error was recently discovered in the Sync Reserve Preliminary Billing Data feed impacting data back to 10/1/2022.

- PJM is requesting feedback from users about the use of these feeds and any impacts with retiring them.
- Submit feedback by March 1, 2026.
  - Please direct any feedback to [mrkt\\_settlement\\_ops@pjm.com](mailto:mrkt_settlement_ops@pjm.com)
- Similar presentations and discussions will occur at Tech Change Forum meetings. Stay tuned to those discussions for additional details.
