FERC & Reliability Compliance

<p>STANDARD: EOP-012</p>	<p><u>Project 2024-03</u> Revisions to EOP-012-2</p>		
<p>PROJECT BACKGROUND:</p>		<p>Action</p>	<p>End Date</p>
<p>Background</p> <p>The purpose of this project is to address the directives identified by FERC in its June 27, 2024 order approving Reliability Standard EOP-012-2 and directing further modifications. N. Am. Elec. Reliability Corp., 187 FERC ¶ 61,204 (2024), available here. In that order, FERC found that further improvements needed to be made to address ambiguous language and address other reliability gaps/implementation issues in the standard and related definitions to fully address issues first raised in the Commission's February 2023 Order approving EOP-012-1. FERC directed that NERC submit the modifications within 9 months of the date of the order, or by March 27, 2025.</p> <p>To meet FERC's March 27, 2025, deadline, and in deference to the importance of this standard, the Board invoked its authority under Section 321.5 of NERC's Rules of Procedure. Under this authority, the Board directed the Standards Committee, with the assistance of stakeholders and NERC staff, to prepare a responsive standard. A special Board meeting will take place in March 2025 to review the standard and a complete record, including the comments submitted during the public comment period.</p> <p>Submit Comments</p>		<p>Comments</p>	<p>03/12/2025</p>
