

Effective Date	October 23,2025
Impacted Manual #(s)/Manual Title(s):	
M-39 Nuclear Plant Interface Coordination, Revision 24 (Periodic Review)	
Conforming Order(s):	
Associated Issue Tracking Title:	
Committee Approval Path - What committee(s) have already seen these changes?	
Planned committee reviews/endorsements: SOS: September 4, 2025 (First Read) and October 1, 2025 (Second Read) RSCS: September 15, 2025 (Info only) OC: September 11, 2025 (First Read) and October 10,2025 (Endorsement)	
MRC 1st read date:	September 25, 2025
MRC voting date:	October 23, 2025
Impacted Manual sections:	
Updated clarifications, references, and grammatical corrections to align with NUC-001 and PJM manuals. Section 1.2 Implementation of NPIRs Section 2.4.2 Information Exchange Section 3.1 Changes to the NPIRs Section 4.1 Additional Nuclear Plant Generator Operator Requirements Attachment C: Plant Specific NPIRs Revision History	
Reason for change:	
• Periodic Review ○ Updated clarifications, references, and grammatical corrections to align with NUC-001 and PJM manuals. ○ Section 1.2 Implementation of NPIRs ▪ Clarified NPGOs responsibility of coordinating the timing and updating of NPIRs ▪ Added direction for Transmission Entities based on NUC-001 requirements ○ Section 2.4.2 Information Exchange ▪ Added note for clarification that real-time communication of Nuclear Voltage Limits takes precedence over aligning with NPIRs ○ Section 3.1 Changes to the NPIRs	

- Clarifying language added to provide details on the process, reasons for changes, and examples of requiring NPIR changes.
- Added direction for Transmission Entities based on NUC-001 requirements
- Section 4.1 Additional Nuclear Plant Generator Operator Requirements
 - Added NUC-001 R1 requirement to table of NUC-001 requirements
- Attachment C: Plant Specific NPIRs Revision History
 - Updated with latest applicable dates and NPIR revision numbers
