

## Stakeholder

**Intended Audience:** Generation Owners/Designated Agents and Market Participants

In anticipation of winter 2025/26, PJM has issued the Winter Cold Weather Operating Limit Data Request. This data request will open on **December 1, 2025** and is applicable to all resources, including renewables.

PJM requires that Generation Owners or designated agents complete the Data Request no later than **23:59 EPT on March 31, 2026**.

**NOTE: This Data Request is mandatory for all generation resources. If data has already been provided in response to previous Cold Weather Operating Limitations Data Requests, response is still required.**

As noted above, the data request is **mandatory** for Generation Owners and Market Participants, and the obligation to respond is not excused, even if a third party asset manager or other third party contractor is responsible for managing the generation resources. Failure to comply with this Data Request may result in potential referral to FERC Office of Enforcement, and is potentially actionable as a violation of the Tariff, the applicable ISA, and/or Operating Agreement section 11.3.1.

**Contacting PJM:** Any questions regarding this data request can be sent via email to [edartgosurvey@pjm.com](mailto:edartgosurvey@pjm.com) or by phone at (610) 666-2282.
