eDART Maintenance Release (Prod & Train: January 29, 2025)

- Modifications to the eDART UI XML upload response page to display error messages returned until closed by the user.

- Adding an error message to Current & Future and Historical reports when:

  - Ticket ID is not entered *or* Company/Zone not entered

- Internal administrative and backend changes

eDART Maintenance Release (Prod & Train: February 26, 2025)

- Internal administrative and backend changes

[Release Notes](#)   [eDART XML Schemas](#)

Revisions to the *pro forma* Open Access Transmission Tariff (OATT) and the Commission's regulations under the Federal Power Act to improve accuracy and transparency of electric transmission line ratings.

– Impacts eDART TERM Application and pjm.com OASIS thermal ratings reports

– Recent implementation updates

  ▪ eDART XML documents page updated

  ▪ eDART TERM application UI updated

  ▪ TERM user access modifications

  ▪ Renamed eDART Public Files to PJM Posting Files

- eDART FERC Order 881 key takeaways:

  – FERC 881 enhancements are available in eDART Train only.

  – eDART TERM UI has been updated to reflect 881 functionality.

  – The CLI to temporarily support current and 881 functionality.

  – Current ratings data (pre-881) will be stale and TERM endpoints not valid post-881 will be retired; retirement date to be announced.

  – XMLs are in progress and will be communicated as delivered.

  – Production release: Q2/25.

  – Compliance deadline: July 12, 2025.

- •Reminder that the Transmission Facility Outages List (linesout.txt) will be updated in Q1/2025
    - ••Tentative Production release date: 02/26/2025
