**Can we gain agreement on which attributes of the DOE order / unit will drive what stakeholder process (if any) we use?**

- Extension of an existing order without material modification?
- Rationale for Issuance of 202c Order
- Locational Specificity of 202c Order
  - If specific location(s) within PJM is identified, does the location(s) map cleanly to PJM LDAs and/or zones?
- Unit Compensation Methodology
- Others?

- Refer to the example flow chart posted with today's meeting materials

This flow chart uses the attributes enumerated on the prior slide
