Interconnection of	)	
Large Loads to the	)	Docket No. RM26-4-000
Interstate Transmission System	)	

**ANSWER IN SUPPORT OF MOTION FOR EXTENSION OF TIME OF
PJM INTERCONNECTION, L.L.C.**

Pursuant to Rule 213 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (the Commission),¹ PJM Interconnection, L.L.C. (PJM) submits this answer in support of the Motion for Extension of Time of the Organization of MISO States, Inc. (OMS) as amplified by the Organization of PJM States, Inc.’s (OPSI) Answer in Support of the Motion for Extension of Time.

Given the complex jurisdictional and novel substantive matters raised in the advance notice of proposed rulemaking (ANOPR), PJM supports granting the requested two week extension of time for initial and reply comments. The additional time will give the industry, states, and other impacted stakeholders time to respond to the ANOPR and facilitate the development of the record in this proceeding.

Respectfully submitted,

/s/ Mark J. Stanisz
