

Submitted via email (AskCR@hq.doe.gov)

On January 28, 2026, PJM is submitting this report relating to the January 27, 2026 operations of Eddystone Unit 3 and Eddystone Unit 4 to comply with the DOE Daily Reporting requirement in Paragraph B of the November 26, 2025 Order No. 202-25-10 (DOE Order), which provides that:

To minimize adverse environmental impacts, this Order limits operation of dispatched units through the expiration of the Order. PJM shall provide a daily notification to the Department (via AskCR@hq.doe.gov) reporting whether the Eddystone Units have operated in compliance with the allowances contained in this Order.

On January 27, 2026, Eddystone Unit 3 and Eddystone Unit 4 operated all 24hrs at varying ranges between the operational min & max in a manner consistent with the Operations Memorandum that PJM and Constellation developed, a summary of which has been publicly posted on PJM's website accessible at: <https://www.pjm.com/-/media/DotCom/committees-groups/committees/oc/postings/20250612-eddystone-3-and-4-unit-reporting-and-commitment-process.pdf>.

PJM understands from Constellation, and Constellation has authorized PJM to represent, that for operations on January 27, 2025, Eddystone Units 3 and 4 complied with applicable environmental requirements consistent with the DOE's Order.
