Re: **American Electric Power Service Corporation**
Docket No. ER17-405-000
Informational Filing of the 2027 Projected Transmission Revenue Requirement

Dear Secretary Reese:

American Electric Power Service Corporation, on behalf of its affiliates, Appalachian Power Company, Indiana Michigan Power Company, Kentucky Power Company, Kingsport Power Company, Ohio Power Company, and Wheeling Power Company (collectively "AEP" or "the AEP East Companies"), hereby submits for filing for informational purposes their 2027 projected annual transmission revenue requirement ("PTRR"). This PTRR is submitted pursuant to revised Attachment H-14 of the PJM Interconnection, LLC ("PJM") Open Access Transmission Tariff ("OATT"), which was accepted by the Federal Energy Regulatory Commission ("Commission") by letter order issued on April 24, 2018, in the above-referenced docket. The PTRR includes fully populated Microsoft Excel files with formulas intact.

The PTRR provides the calculation of the 2027 projected revenue requirement. The 2027 projected revenue requirement will be included in customer rates beginning January 1, 2027. The PTRR contains no expenses or costs that have been alleged or judged in any administrative or judicial proceeding to be illegal, duplicative, or unnecessary costs that are demonstrably the product of discriminatory employment practices, as defined in 18 C.F.R. § 35.13(b)(7). In addition, the AEP East Operating Companies have made no material changes in their accounting policies and practices from those in effect during the previous rate year and upon which the current rate is based.

Additionally, the 2027 PTRR reflects adjustments calculated pursuant to the Commission's June 30, 2025, order in the above captioned docket.[1] The adjustments are detailed in AEP's August 29, 2025, compliance filing, which was accepted by the Federal Energy Regulatory Commission on March 27, 2026.[2]
