

National Grid Ventures

National Grid Ventures (NGV) is the commercial arm of National Grid plc, one of the largest investor-owned energy companies in the world. NGV develops and operates energy assets and businesses in the US, the UK and Europe including competitive transmission, Liquefied Natural Gas (LNG) storage, battery storage, solar and conventional generation. A global leader in operating transmission infrastructure, NGV runs the world's largest portfolio of high-voltage, subsea interconnectors, and is working to modernize and expand the electrical grid in the US to deliver affordable, reliable energy.
