RE: Deactivation Notice per PJM Open Access Transmission Tariff Section 113.1

To: The PJM Office of Generator Deactivation:

Forked River Power LLC ("Forked River") previously submitted notice on February 24, 2025, of its intent to deactivate and retire the two generating units at the Forked River facility (the "Facility") effective June 1, 2027 for Unit-1 and June 1, 2026 for Unit-2. On May 30, 2025, PJM confirmed that no reliability violations were identified in connection with the proposed deactivation of Unit-1 and Unit-2. A revised notice was also submitted July 22, 2025 to extend the deactivation date for Unit-2 to June 1, 2027. Both notices are attached here for your reference. Per the attached, PJM has confirmed that no reliability violations were identified in connection with the June 1, 2027 deactivation date for Unit-2.

Forked River now provides an update that the Facility will deactivate and retire on June 1, 2026. Forked River will submit formal notice via email to the PJM Policy and Program Management team once the deactivation has been completed.

If you have any questions regarding this notice, please contact me at 904 476 0970.

Sincerely,

A handwritten signature in blue ink, appearing to read "Craig Herlihy".

Craig Herlihy
