RE: Notice of Deactivation of Forked River Power, LLC's Unit-2 Generator

To: The PJM Office of Interconnection:

Pursuant to PJM Open Access Transmission Tariff (OATT) Attachment DD §6.6(g)(C), PJM OATT Attachment M-Appendix §II.C.4(A) and II.C.4(C), PJM OATT Part V §113.1 (Deactivation Notice), and PJM Manual D14: Generator Operational Requirements, §9.1 (Generator Deactivation Process), Forked River Power, LLC ("Forked River") hereby submits on behalf of its Unit-2 Generator this notice of deactivation, effective June 1, 2026. Specifically, through this letter, Forked River is: i) requesting an exception to the must-offer requirement for the June, 2026 Base Residual Auction (for the 2026/2027 delivery year); ii) submitting its plan of retirement; and iii) providing its Notice of Deactivation effective June 1, 2026.

Forked River's Unit-2 generating facility in its current state will be physically unable to perform in the Delivery Year 2026/2027 because of its inability to meet NJ air permit requirements. Thus, as affirmed by this submission, Forked River plans to retire the Unit-2 generating facility before the commencement of the 2026/2027 delivery year and provides this Notice of Deactivation.

Plant Description:

Forked River Power, LLC Unit-2  
789 S Main St Gate 5  
Forked River, NJ 08431
