Dear Mr. Bryson:

Aurora Generation, LLC (“Aurora”), LSP University Park, LLC (“LSPUP”), Rockford Generation, LLC (“Rockford”), and University Park Energy, LLC (“UPE”) (collectively, the “Illinois Generating Assets”) provides this response to your correspondence dated May 16, 2026.

Aurora owns Aurora Units 1-10. LSPUP owns the University Park North CTs 1-12. Rockford owns Rockford CTs 11, 12, and 21. UPE owns the University Park South CTs 31-33 (all assets collectively, the “Identified Units”). Pursuant to the Illinois Climate and Equitable Jobs Act (“CEJA”), the Illinois Generating Assets are required to “permanently reduce all CO₂e and copollutant emissions to zero, including through unit retirement” by January 1, 2030.¹ As such, the Illinois Generating Assets intends to retire the Identified Units on January 1, 2030.

Included with this correspondence and consistent with Section 9.15 of CEJA, the Illinois Generating Assets are submitting a formal deactivation notice pursuant to Part V of the PJM Tariff.

Per your correspondence, the Illinois Generating Assets would operate the Identified Units beyond January 1, 2030 if it was determined by PJM that the units must remain in operation pursuant to the reliability provisions set forth in CEJA and the terms of the request are consistent with the below.

We are also aware that the Clean and Reliable Grid Affordability Act (“CRGA”) is meant to address resource adequacy in the state through an integrated resource planning process, and that the Integrated Resource Plan contemplated under CRGA will be final in January 2028, if approved by the General Assembly. In light of this timeline, the Illinois Generating Assets’ commitment to continue to operate the Identified Units beyond January 1, 2030, if PJM determines they are needed, is contingent on a commitment from PJM to continue to operate the Identified Units through the 2029/2030 and 2030/2031 delivery years and appropriate compensation.

We appreciate PJM’s willingness to collaborate on this matter.

Sincerely,

Bradley Kranz

RE: Deactivation of Aurora Generating Station

Dear Mr. Bryson:

On behalf of Aurora Generation, LLC ("Aurora") and pursuant to Part V, Section 113 of the PJM Open Access Transmission Tariff ("OATT"), please accept this Deactivation Notification of the following units:

Unit	Unit ICAP (MW)
Aurora CT 1	167
Aurora CT 2	167
Aurora CT 3	167
Aurora CT 4	167
Aurora CT 5	51
Aurora CT 6	51
Aurora CT 7	51
Aurora CT 8	51
Aurora CT 9	51
Aurora CT 10	51

Aurora respectfully requests an effective Deactivation Date for the purpose of retirement of January 1, 2030. Aurora is deactivating these units due to uneconomic compliance requirements of the Illinois Climate and Equitable Jobs Act. In the event PJM determines that this unit is needed for reliability purposes, Aurora will provide estimates of the costs and timing of additional expenditures to maintain the facilities.

Sincerely,
