Dear Mr. Bryson:

Midwest Generation LLC (“MWG”) provides this response to your correspondence dated May 16, 2026. MWG owns Fisk Units 31-34; Powerton Units 5-6; and Waukegan Units 31-32 (collectively, the “Units”). Pursuant to the Illinois Climate and Equitable Jobs Act (“CEJA”), the Units are required to “permanently reduce all CO₂e and copollutant emissions to zero, including through unit retirement” by January 1, 2030.¹ As such, MWG intends to retire the Units on January 1, 2030.

Included with this correspondence and consistent with Section 9.15 of CEJA, MWG is submitting a formal deactivation notice pursuant to Part V of the PJM Tariff.

Per your correspondence, MWG would operate the Units beyond January 1, 2030 if it was determined by PJM that the units must remain in operation pursuant to the reliability provisions set forth in CEJA and the terms of the request are consistent with the below.

We are also aware that the Clean and Reliable Grid Affordability Act (“CRGA”) is meant to address resource adequacy in the state through an integrated resource planning process, and that in the Integrated Resource Plan contemplated under CRGA will be final in January 2028, if approved by the General Assembly. In light of this timeline, MWG’s commitment to continue to operate the Units beyond January 1, 2030, if PJM determines they are needed, is contingent on a commitment from PJM to continue to operate the Units through the 2029/2030 and 2030/2031 delivery years and appropriate compensation.

We appreciate PJM’s willingness to collaborate on this matter.

Sincerely,

Bradley Kranz
President
Midwest Generation, LLC

RE: Deactivation of Powerton, Fisk, and Waukegan Generating Stations

Dear Mr. Bryson:

On behalf of Midwest Generation LLC ("MWG") and pursuant to Part V, Section 113 of the PJM Open Access Transmission Tariff ("OATT"), please accept this Deactivation Notification of the following units:

Unit	Unit ICAP (MW)
POWERTON COAL 5	769
POWERTON COAL 6	769
FISK CT 31	49.1
FISK CT 32	50.8
FISK CT 33	47.9
FISK CT 34	22.9
WAUKEGAN CT 31	52.5
WAUKEGAN CT 32	48.3

MWG respectfully requests an effective Deactivation Date for the purpose of retirement of January 1, 2030. MWG is deactivating these units due to uneconomic compliance requirements of the Illinois Climate and Equitable Jobs Act. In the event PJM determines that this unit is needed for reliability purposes, MWG will provide estimates of the costs and timing of additional expenditures to maintain the facilities.

Sincerely,

A handwritten signature in black ink, appearing to read "Bradley Kranz", written over a light blue horizontal line.

Bradley Kranz
President
Midwest Generation, LLC
