¹ Many studies did not require a facilities study because they do not fall under FERC jurisdiction, or were capacity uprates. Accordingly, the metrics reflecting facilities studies are focused on the projects that required facilities studies reports.

² Facilities Studies are only performed for system reinforcement Network Upgrades in Phase 3. A Network Upgrade can be shared by multiple projects. There were 74 system reinforcement Network Upgrades in Transition Cycle 1 Phase 3.

³ PJM is interpreting “six months” to mean six calendar months, and adjusted dates to avoid any overlap.
