

Q&A - Where to Direct PJM Questions and/or Concerns

PJM Compliance Line

Q1 What is the purpose of the PJM Compliance Line?

A1 The PJM Compliance Line is available to report any concerns regarding potential violations of PJM's Code of Conduct, governing documents, applicable laws (including FERC, NERC, ReliabilityFirst), or other compliance obligations.

In addition, any concerns regarding questionable or concerning activities relating to PJM's operations, financial reporting, accounting, internal controls, tax, conflicts of interest, corruption or other improprieties should be reported. Credit risks to the organization not being addressed by PJM may also be reported.

Q2 How do I access the PJM Compliance Line?

A2 The PJM Compliance Line is (866) 776-6942, which is posted on pjm.com and around the PJM campus. The [Compliance Line Online reporting tool](#) is also available.

Q3 Who can call the PJM Compliance Line or use the online reporting tool?

A3 Employees, vendors, contractors and other non-employees, including PJM Members and stakeholders.

Q4 Who operates the PJM Compliance Line?

A4 The PJM Compliance Line is operated by an independent third party. Concerns may be reported either with identification or anonymously. If anonymity is requested, concerns and inquiries will be held in confidence to the extent legally permitted

Q5 What happens when a concern is reported? How is it escalated?

A5 The independent third party hotline operator will take down the details of the concerns and will protect the confidentiality of the caller. The PJM Board has a formal escalation policy – like that of many of our Member companies – that requires certain types of concerns to be escalated promptly to the Board. The Board then has the ability to direct the next steps, including engaging other independent outside expertise to investigate or otherwise assist with the resolution of the concern.

His can be reached toll-free at (833) 705-8428 or by email at Board.Liaison@pjm.com.

Q7 Are there other ways to share feedback about the Independent Market Monitor?
