

Market Settlements Subcommittee Monthly Progress Report

May 26, 2020

1. Load Reconciliation Process

<https://www.pjm.com/committees-and-groups/issue-tracking/issue-tracking-details.aspx?Issue={3B9BD28F-DCCD-4D88-A01F-5A279CB9D1B8}>

Issue Status

The Subcommittee decided to remain status quo on the overall Load Reconciliation Process issue. Additional discussion occurred on the InSchedule Data Submission design component and solution options. PJM is currently looking into the implementation of these updates.

Target Completion

N/A

Progress Update

The MSS had one solution package which received majority support in a January poll. During the January MSS, some additional concerns were raised by members with regards to the data submission and invoice timing. PJM modified the existing package the Subcommittee reviewed at the February 25, 2020 meeting. It was decided that the Subcommittee would prefer Status Quo on the issue.

Additional discussion occurred in March for the InSchedule Data Submission design component and solution options to potentially allow EDC members the option to submit either the final or the delta values. PJM is looking into implementing these updates and will communicate any updates at the Tech Change Forum and Market Settlements Subcommittee.

Action Requested (if necessary)
