

DER & Inverter-Based Resources Subcommittee Monthly Progress Report

June 21, 2021

1. Solar-Battery Hybrid Resources

- <https://www.pjm.com/committees-and-groups/issue-tracking/issue-tracking-details.aspx?Issue=%7b3423B18C-59C2-49DD-84C5-AF42B1BA0256%7d>

Issue Status

Solution Proposed

Target Completion

June 28, 2021

Progress Update

- PJM staff reviewed PJM's package regarding Reserves and made modifications to PJM's package for Modeling Energy/Ancillary Services and Resource Classification Process.
- Dominion discussed a new solution package option and Sharon Thomas provided feedback on the proposals on behalf of the Energy Storage Association.

Action Requested (if necessary)

- Stakeholders are finalizing proposals and are the final stages of narrowing packages and are gearing up to test for support, and if feasible, recommend a tier 1 (preferred) or tier 2 solution to the MIC and OC in July. If not feasible, then proposal(s) will be taken to the MIC and OC in August for a first read.

2. FERC Order 2222 / DER Aggregation

Issue Status

Education / Ongoing stakeholder discussions

Target Completion

Compliance filing due February 1, 2022

Progress Update

- Numerous Stakeholders provided feedback on PJM' straw proposal addressing concerns and providing recommendations.
- PJM staff led a discussion on draft use cases regarding the DERA market participation model.

Action Requested (if necessary)

- Stakeholder feedback/presentation on Order 2222. If your organization would like to provide input on the Order or any of the material PJM staff has presented to date, the stakeholder process for developing the compliance filing, and/or recommendations specific to the various directives within the Order, please contact the DIRS facilitation team.
