

Executive Summary Manual Changes

Effective Date	June 1, 2023
Impacted Manual #(s)/Manual Title(s): Manual 11: Energy and Ancillary Services Market Operations	
Conforming Order(s): N/A	
Associated Issue Tracking Title:	Synchronous Reserve Response during Event Deployment
Committee Approval Path – MIC and MRC	
MRC 1st read date:	April 26, 2023
MRC voting date:	May 31, 2023
Impacted Manual sections: Section 4.3, Reserve Requirement Determination	
Reason for change: Duration of Synchronous Reserve Events since the implementation of Reserve Price Formation on October 1, 2022 have been over 10 minutes for half of the observed events. PJM is concerned about maintaining compliance with the NERC Disturbance Control Standard as defined in BAL-002-3.	
Summary of the changes: Quick fix to allow for additional flexibility to extend the second step of ORDC on a daily basis in an amount reflective of non-performance during events since October 1, 2022.
