

Manual 39

Nuclear Plant Interface Coordination

Revision 19

Dan Bennett
Sr. Engineer, Generation
Markets and Reliability Committee
July 25, 2019

Action Required	Deadline	Who May Be Affected
Educational – No Action Required	7/26/2019	NPGOs and TOs

- **Section 2.7:** Remedial Action Schemes and Under Frequency Load Shedding/Under Voltage Load Shedding Coordination
 - Added language to address coordination around Remedial Action Schemes and load shedding schemes
- **Section 3.6:** Nuclear Plant Deactivations and Retirements
 - Added language to address the deactivation and retirement process for nuclear units and the regulatory requirements of that process

- **Section 3.7: Coordination of Functions Between Reliability Coordinators**
 - Added language to address the coordination between Reliability Coordinators when a non-PJM member is identified by an Nuclear Plant Generator Operator as a Transmission Entity
- **Attachment B: Plant Specific NPIRs**
 - Renamed attachment to Plant Specific NPIRs
- **Attachment C: Plant Specific NPIRs Revision History**
 - Informational update to NPIR revision history
