

Energy Efficiency Measurement & Verification (M-18B) Revisions for Periodic Review

Theresa Esterly
Sr. Lead Engineer, Capacity Market Operations
Markets & Reliability Committee
June 25, 2019

- Clarification of existing provisions
- Conforming revisions for FERC Orders
 - ER18-870: Ensuring Compliance with EE Rules Issued by Authorized Relevant Electric Retail Regulatory Authority (RERRA)
 - ER17-367: Seasonal Capacity Resources
- Administrative updates
 - Deletion of outdated material
 - Replace incorrect references
 - Correct typos

Proposed Revision & Impacted Section(s)

Proposed Revision	Impacted Section(s)
Clarified manual focuses on measurement and verification of both Nominated EE Value and Capacity Performance value of EE Resources	Introduction
Clarified EE Resource may be modeled at sub-zonal LDA level	1.3 & 3.1.2
Clarified EE Resource may be used as replacement resource for another EE Resource in accordance with Section 8.9 of Manual 18.	5.1.3
Added conforming revision for FERC Order ER18-870 to subject EE Resources to the rules in Manual 18 that facilitate the implementation of any restrictions that may be imposed on EE Resources by an Authorized RERRA to opt-out or restrict sales of EE Resources	1.1
Added conforming revisions for FERC Order ER17-367 to implement Seasonal Capacity Performance Resources (Summer-Period EE Resources)	1.1
Deleted outdated Delivery Year information	1.1, 1.2, & 10.1
Replaced RAA Schedule 6 (section M) reference with RAA Schedule 6 (section L)	1.1
Replaced eRPM system with Capacity Exchange system	1.3, 5.1.3, & 5.1.4
