

# Manual 12: Balancing Operations Revision 40 Updates

Rebecca Carroll  
Director, Dispatch  
Markets & Reliability Committee  
February 20, 2020

- Periodic Review
- Proofreading review updated in all sections
- Approval – changed from Chris Pulong to Rebecca Carroll
- About this Manual – updated Bulk Power Electric Supply system facilities to Bulk Power System
- Section 3.3 – deleted entire section. Section 2.1 of the Regional Transmission and Energy Scheduling Practices document is the official source of this information
- Section 3.4 – deleted entire section. Section 2.2 of the Regional Transmission and Energy Scheduling Practices document is the official source of this information
- Section 4.1.2 and Attachment D – updated language to be consistent with the NERC definition of a Disturbance Control Standard (DCS) event
- Attachment B Section 3.4 – changed cost-capped to offer-capped
- Attachment D – added the NERC definition for a Reportable Disturbance
- Attachment F Section F3 – updated references to PJM Manual 03A which were recently changed

- Intended to help drive consistency across manuals in items such as capitalization, punctuation, grammar and usage
- All sections in the manual were updated to reflect:
  - Standard grammar
  - Standard punctuation
  - Capitalization – all capitalized defined terms checked in OA, Tariff and RAA as well as within the manual and NERC glossary of terms
  - Check links
  - Check names of PJM departments/divisions
  - Remove extra words/add missing words
  - Fix spelling errors
  - Fix spacing errors
  - Put times, numbers, phone numbers and units of measure into consistent format
