Carolina 22 SPS Retirement

Lagy Mathew
Transmission Operations
Planning Committee
March 10, 2016
• SPS was installed in 2007
  – Located in Dominion
• Purpose
  – Addressed thermal overload on the Carolina-Kerr Dam (22) 115 kV line, typically for the contingent loss of a facility in the near-by area
• SPS opened the Carolina “2202” 115 kV CB
• SPS has been retired as of 2/8/16
  – Completion of RTEP project b1793 to rebuild Kerr Dam-Carolina #22 line and b1793.1 to remove the Carolina 22 SPS
• Related Manual 03 procedure will be removed in the June update.
