PJM Queue Cost Allocation

Aaron Berner
Manager, Interconnection Analysis
Planning Committee
June 9, 2016
Applications

- Types of applications:
  - Attachment N – new generation and uprates to existing generation
  - Attachment S – merchant transmission requests
  - Attachment Y – new generation, less than 2 MW synchronous, 5 MW inverter and not seeking Capacity Interconnection Rights (CIRs)
  - Attachment BB – inverter based generation no larger than 10kW
  - Attachment EE – Upgrade Request (IARR request)
  - Attachment FF – Long term firm request
• Studies intended to be evaluated in coordinated queue
  – Customers are evaluated together and in sequential order for each queue

• Cost Allocation rules cause divergence in process for some studies
  – Transmission Service customers are not allowed to share costs with other customers in the queue

• Next Steps…
