PJM Manual 14F: Competitive Planning Process

Michael Herman
Transmission Planning
Planning Committee
May 4, 2017
• PC first read to present incorporation of comments

• Seek MRC endorsement at 6/22/2017 meeting

• Special PC: Consideration of Cost Cap/Containment Provisions for Competitive Proposals – 5/24/2017
  – These discussions will proceed in parallel to the PC/MRC presentations
• Brand new Manual

• Documents existing RTEP Proposal Window Process

• Majority of content already in existing (non-manual) documentation

• Purpose of M14F is to allow of a single source of process/decisional information regarding PJMs implementation of FERC Order 1000
• Internal development started in late 2015

• Concepts discussed at Special PC starting with Market Efficiency decisional document in early 2016

• Decisional diagram (Attachment 4) developed via TEAC Redesign efforts through Special PC

• DRAFT M14F Language discussed at 3 consecutive meetings of Special PC
Overview

- Introduction
- Section 1: Proposal Window Overview
