PJM Competitive Transmission
Enhanced Project Proposal Template

Planning Committee
Jason Shoemaker
June 7, 2018
MRC voted on cost containment approving the alternative motion
  – PJM enhanced project proposal template greenlighted for use

PJM currently targeting to use the new template for the 2018 competitive transmission windows
• New project proposal template features
  – Clear and transparent communication of project specifics
  – Uniform, fill-in format for project information
  – Organized in sections to facilitate easy preparation and review
  – Adaptable for future conversion to electronic submission
Process Changes

- Single project proposal template for all competitive project submittals
- All project proposal templates to be made public
- Window problem statement and requirements document and the redaction guidelines will be updated to reflect the new template
- New enhanced project proposal template to be posted with the window materials
