Definition of “Generating Facility” to Include Storage for Later Use.

Commission Required Change:

“Generating Facility shall mean Interconnection Customer’s device for the production \textit{and/or} storage for later injection of electricity identified in the Interconnection Request, but shall not include the interconnection customer’s Interconnection Facilities.”

Change to RAA Definitions:

\textbf{Capacity Resources}: “Capacity Resources” shall mean megawatts of (i) net capacity from Existing Generation Capacity Resources or Planned Generation Capacity Resources meeting the requirements of the Reliability Assurance Agreement, Schedules 9 and Reliability Assurance Agreement, Schedule 10 that are or will be owned by or contracted to a Party and that are or will be committed to satisfy that Party's obligations under the Reliability Assurance Agreement, or to satisfy the reliability requirements of the PJM Region, for a Delivery Year; (ii) net capacity from Existing Generation Capacity Resources or Planned Generation Capacity Resources not owned or contracted for by a Party which are accredited to the PJM Region pursuant to the procedures set forth in such Schedules 9 and 10; \textit{and/or} (iii) load reduction capability provided by Demand Resources or Energy Efficiency Resources that are accredited to the PJM Region pursuant to the procedures set forth in the Reliability Assurance Agreement, Schedule 6.

\textbf{Generation Capacity Resource}: “Generation Capacity Resource” shall mean a \textit{Generating Facility} generation unit, or the contractual right to capacity from a specified \textit{generation unit Generating Facility}, that meets the requirements of RAA, Schedules 9 and RAA, Schedule 10, and, for \textit{generation units Generating Facilities} that are committed to an FRR Capacity Plan, that meets the requirement of RAA, Scheduler 8.1. A Generation Capacity Resource may be an Existing Generation Capacity Resource or a Planned Generation Capacity Resource.

Change to Tariff Definitions:

\textbf{Customer Facility}: shall mean \textit{generation Generating facilities Facilities} or Merchant Transmission Facilities interconnected with or added to the Transmission System pursuant to an Interconnection Request under \textit{Subparts A of Tariff, Part IV}.

\textbf{Energy Resource}: shall mean a \textit{generating Generating facility Facility} that is not a Capacity Resource.
