

# Sunsetting DER Ride Through Task Force

Susan McGill  
December 12, 2019  
Planning Committee Meeting

- Problem statement presented by PJM to address changes to IEEE-1547-2018
  - Problem Statement ([link](#))
  - Issue Charge ([link](#))
- Task Force created after the November 8, 2018 Planning Committee meeting

- Early meetings focused on education related to the IEEE standard, distribution protection, and lineman safety
- Early polling indicated stakeholders did not want a PJM standard ride through settings package. ([link](#))
- Differences in local distribution systems required unique settings
- Task Force created PJM recommendation to use when there is no local standard

- Recommendation paper posted on PJM's website ([link](#))
- Reference to paper in PJM Manual 14D
  - Changes presented as a first read at October Operating Committee
  - Expect MRC endorsement by December

- Completed tasks directed by the Planning Committee
- Recommend closing Task Force
