

BANKRUPTCY PROTECTIONS

Issue Source PJM

Issue Content

In order to better protect the PJM membership in the case of Member bankruptcies, particularly those Members that are Market Participants, enhancements to language in the Tariff and Operating Agreement to incorporate bankruptcy protection should be explored. These enhancements would better protect PJM and its Members from a bankruptcy debtor trying to assume only some of the Agreements and rejecting others.

Key Work Activities and Scope

The following are key work activities that should be undertaken to address the issue articulated above:

- 1. Provide education on:
 - a. Existing bankruptcy protections within the Governing Agreements
 - b. Existing best practices regarding implementing bankruptcy protections outside of PJM
 - c. Existing bankruptcy protections within other ISOs/RTOs
- 2. Explore potential bankruptcy protections and identify a set of enhancements to bankruptcy protections to better protect PJM and Members, as appropriate.

Expected Deliverables

1. Updated Governing Agreement and/or manual language specifying enhancements to better protect PJM and Members from Member bankruptcies, as necessary.
