Queue Point Release 2016.1

- Production go-live was rescheduled to January 26th.
New Interconnection Queues

- New Interconnection Queues page will replace these queues:
  - Generation Interconnection
  - Merchant Transmission
  - Long-Term Firm Transmission Service
  - ARR Analyses
- Combines tables into a single, more easily-understandable and filterable format
- Cost Allocation, Generation Deactivations, Transmission Construction Status & RTEP Construction Status pages are not changing
Customer Impact / Expectations

• Test out the new functionality in early Q3 during the beta launch
• Update any systems that utilize the existing XML files during Q3
  – New XML links and sample format will be provided upon go live of beta.
• Look for demo of new functionality at the March 21 Tech Change Forum meeting
