In June 2015, FERC established a FPA section 206 proceeding in Docket No. EL15-73-000.

PJM made subsequent compliance filings detailing plans to allow market participants to submit day-ahead offers that vary by hour and to update their offers in real time, including during emergency situations.

Detailed market rule discussions occurred in the Generator Offer Flexibility Senior Task Force in 2015.

Schedule Change

- The implementation of Intraday Offers will limit the schedule IDs that can be created and used.
- Schedules not in the new list will not be able to be made available in Markets Gateway.
- Members are urged to begin using the IDO schedule IDs at their earliest convenience to minimize the impact at time of implementation.
