Intraday Offers

As of June 20, 2017
Overview

• In June 2015, FERC established a FPA section 206 proceeding in Docket No. EL15-73-000

• PJM made subsequent compliance filings detailing plans to allow market participants to submit day-ahead offers that vary by hour and to update their offers in real time, including during emergency situations

• Detailed market rule discussions occurred in the Generator Offer Flexibility Senior Task Force in 2015

• On Feb. 3rd, FERC accepted our compliance filing with minimal changes, and we submitted our final compliance filing on March 6th
• Additional Education sessions have been scheduled for Monday, August 7th and Friday, September 15th
• New Intraday Train environment
  – Additional Materials are available on the Markets Gateway Tools Page
    • The External Interface Specification Guide, which now includes information for DR, has been posted
    • The XML Schema, including the XSD information, has also been posted
    • Intraday Offers Frequently Asked Questions Document
      – Accessing the IDO Training Environment
      – Market Rule Changes
      – XML/Browserless Information & Examples
Schedule Change

- The implementation of Intraday Offers will limit the schedule IDs that can be created and used.
- Schedules not in the new list will not be able to be made available in Markets Gateway.
- Members are urged to begin using the IDO schedule IDs at their earliest convenience to minimize the impact at time of implementation.
