eRPM/Capacity Exchange Roadmap

As of August 22, 2017
The eRPM refresh is underway. The refreshed application will be called Capacity Exchange.

**Customer Impact/Expectations**
- Customers will be required to update/replace existing browserless configuration.
- At minimum participants will be required to update browserless to reference Capacity Exchange and utilize single sign on (SSO).
- Customers will be requested to participate in Testing/Train environment verification November, 2017.
- Multi-year project – Parallel operations planned for 2018 Q1.
**Note: Schedule may be delayed. Update to be provided in August Tech Change Forum**
## 2017 Roadmap
