- ◆ End Date

- Release 2018.1
  - Merges Gen Model into Queue Point framework.

Area	Action Required	Outage
User Interface	None – new form replacing manual process	60 minutes
Browserless	None – no browserless	n/a

# Product Details

[Queue Point](#) simplifies the way interconnection requests are submitted. It can be used to submit new requests as well as make changes to existing requests.

## Key Product Features

- Queue Point replaces the Datasheets application

[Gen Model](#) allows generation owners to upload required data for NERC's MOD-032-1 standard.

## Key Product Features

- This standard establishes consistent modeling data requirements and reporting procedures needed to develop planning horizon models.
- These models are necessary to support reliability analyses of the transmission system.
