Two-Step Verification
Recent/Upcoming changes

• In response to feedback
  – We’ve introduced a new screen for entering the two-step token
    • The purpose of this screen is to clarify how the process works while
      the user is using the tool
  – We will be increasing the token timeout from 10 minutes to 30
    minutes

• Users do not have to make any changes when these take effect
