Upcoming changes as part of FERC order 844 in Release 19.01:

• The Real-Time Marginal Value Feed will be updated to include the ‘Transmission Constraint Penalty Factor’ (TCPF) and the ‘Limit Control Percentage’ that was applicable for the binding constraint.

• A new feed will be available that displays Real-Time transmission constraints which have a TCPF which is different from the default TCPF values documented in the PJM tariff.

• Data from Operational Data page release is deferred to Q2 2019. Feeds were made available in train for Beta testing on June 30, 2018.

• Acceptable Terms of Use will be updated for Data Miner 2 usage to the following “Data is available for internal use as before. Republishing the data requires a republishing agreement”
