**Train: December**
Project Goals

• Improve browser compatibility
• Create consistent User Interface (UI) look and feel, similar to other PJM Tools applications
• Create supportable framework for PJM development staff to manage new report development and changes
• Implement standard token based security for authentication (browserless)
• Maintain current Single User Multi Account (SUMA) capability
• Improve report request performance
• Support enhanced functionality
• Minimize impact to users for browserless report requests
  – Maintain API protocols and standards
Impacts to Members

• Token based authentication will replace the current basic authentication
  – Improved security
  – Consistent authentication protocol with other PJM Tools applications

• Reports will not be viewable on the current UI with the exception of billing invoices
Impacts to Members

• Reports can still be downloaded in CSV, XML, and PDF formats through the UI
  – PDF format applies to billing invoices
  – PDF format will be slightly modified, but with same data content

• UI pages will be redesigned
  – New landing page
  – Enhanced shopping cart functionality
Proposed Timeline

• 2020 – PJM development and testing
• 2021 – Parallel production operations
• 45-60 days prior to parallel production operations, new MSRS will be available for member access in training environment
• 90 days after parallel production operations, legacy MSRS will be retired
• Comments, suggestions, questions please send to mss@pjm.com
Product Details
• Market Settlements Reporting System (MSRS) is a tool used by market participants to retrieve market settlements reports and monthly billing statements.
