**MESSAGE POSTS** - Messages posted identify the impacted tool or page, when the update will occur, how long it will impact users and any actions they will need to take prior to the change.

5

**FILTERS IN ACTION** - Users can filter notifications by tool, date and impact.

**Maintenance Details**

Key Messages

Dear Members,

**Action requested:** Please share this communication internally within your organization to anyone who may need this information.

PJM will perform system maintenance on **Wednesday, January 16 from 9:00 - 10:00 a.m. EPT (900 - 1000 hours)**. During this maintenance, there will be **up to a 15 minute outage to the Gas Pipeline production environment**.

**MORE DETAILS** - Click within the notification details to see additional information on the change.
